Re.: HOS Riverbend / Shell MARS Project

Stu, Pete,

Hornbeck Offshore would like to recognize a "job well done" by the Taylors staff assigned to the HOS Riverbend during the recent flotel job at Shell MARS. It takes a collective team to be successful when serving the needs of so many people and the Taylors team provided top quality service in meeting the demands of the workers onboard the HOS Riverbend.

As a sign of appreciation and a way for the workers to remember their experience on this project please find the enclosed shirts for each of the workers listed and please pass along my personal gratitude for their service onboard.

With Kind Regards,

  
Randy Tredinich  
V.P. Operations, MPSV/Specialty Fleet
